We have just discussed a few options of paying to gain faster access to various health services. I would like to ask you how much faster you would expect these services to be delivered. On a scale of 1-10, where 1 means Not at all satisfied, and 10 means Very satisfied, how satisfied would you be with the following reductions in wait time if you paid the amounts you just indicated:

29A. See a specialist or a surgeon in one week instead of in two weeks.
